- Knock out the punch list

About Us

We are a local firm performing jobs from fix-up tasks to historic repair and renovation to building performance to larger remodeling projects.

In recent years we have won several awards for our design, old world quality, and values.

Your expectations are our starting point; we go up from there. You can count on our responsiveness, quality, honesty, and value.

As home owners, your investment in our craftsmanship returns high rewards.

An Energy Audit

Blower Door Test

Measures air leakage and identifies areas of concern

Duct Blaster

Measures gaps or leaks in heating, A/C, and return air duct system

Smoke Pencil

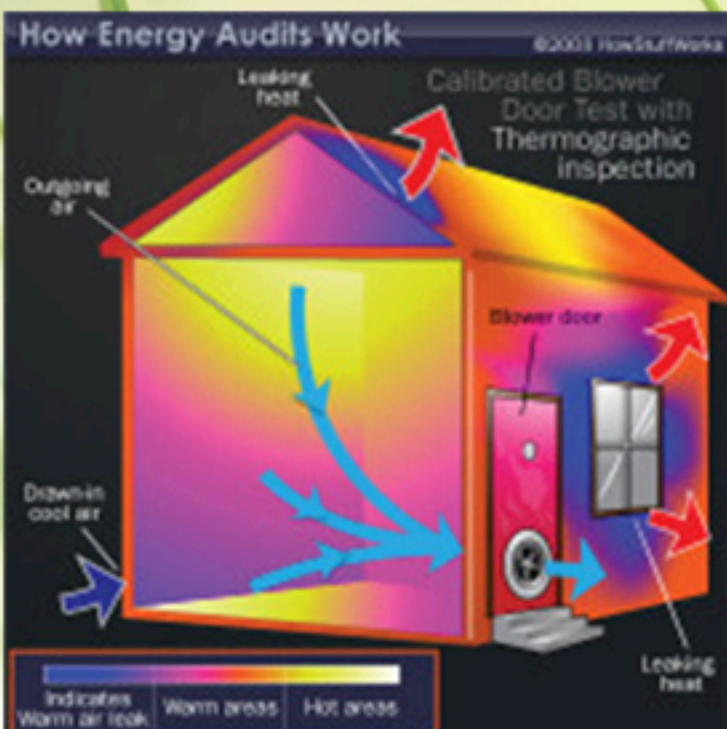

Tool used with blower door and duct blaster to pinpoint specific air leaks

Infra-red Camera

Displays relative differences in temperature (by color) to identify places that are transferring heat inefficiently -- heat loss in Winter, heat gain in Summer -- and/or leaking air (and perhaps water)

Detailed Report

Written report of your Energy Audit findings and prescribed actions

Benefits

Save Money on Energy Bills

A prioritized list of improvements based on cost-efficiency, lets you know which will have the largest positive impact on your energy bills.

A Healthy Comfortable Home

A thorough examination includes a whole-house evaluation of air quality and temperature consistency so you can rest assured that your home is safe and comfortable.

Increase Your Home's Value

A more energy-efficient home will improve future resale - some studies suggest a 20-1 increase for every energy dollar saved during the year after improvements are completed.

Financial Incentives

- Energy Audit discounts and rebates for a limited time
- Valuable rebates are available on select repairs or upgrades
- Government programs offer tax credits for specific types of upgrades (such as insulation, high-efficiency HVAC systems, etc.)
- Low-interest Loans (as low as .9%) are available for meeting certain energy-efficiency guidelines

Approved Contractor with

Do You Know What's Happening in YOUR House?

Reduce your Energy and Costs
20% to 40% on Average

Your customized report will reveal:

- the energy rating of your home
- prioritized improvement strategies
- potential energy savings

A follow-up visit will produce a detailed proposal which may include some of the following:

- Air-sealing your building envelope
- Insulating your basement/attic
- Sealing your ductwork
- Upgrading windows & doors
- Replacing an old/unsafe furnace
- Upgrading an old water heater
- Updating inefficient lighting
